Conspectus, Inc. Announces Executive Vice Presidents, Saltz and Gantner

Tuckahoe, New Jersey - September 7, 2022 -

Conspectus, Inc., incorporated 2008, currently has clients throughout the United States, produces specifications for projects throughout the world, is located in seven states across the country, and continues to grow. In response to the proliferation of the firm, David Stutzman, founder and president, named Elias Saltz and Steve Gantner Executive Vice Presidents of Conspectus in June, 2022.

Saltz, located in Chicago, IL has been with the firm since 2018, and has over 30 years of industry experience. He has extensive technical knowledge and has been instrumental in the development of Conspectus Cloud - the industry's first decision management and specification tool, created for the entire project team. Saltz is an industry leader through the board positions he holds in SCIP (Specifying Consultants in Independent Practice) and CSI (Construction Specification Institute), as well as conference speaking engagements and education appointments. He will be technical partner in this vice presidency.

Gantner, located in St. Louis, MO, has been with the firm since 2019, also has over 30 years of industry experience. He has extensive knowledge in all phases of construction from design through project commissioning, specializing in construction administration. Gantner has aided in the development and releases of Conspectus Cloud. His leadership is throughout the industry in associations including CSI and speaking engagements and educational involvement in AGC (Associated General Contractors). He will be the business development partner in this vice presidency.

Both gentlemen also hold the duties of senior specifier and have been creating and nurturing rapport with current and future clients. Their visions align with that of Stutzman for the future success of Conspectus, that will guide the firm into improving processes and relationships within project teams through transparency, and revolutionizing the industry.

Conspectus, Inc. is a respected leader in creating comprehensive design and construction documentation including specification. Our transparent approach increases value and reduces risk for all capital project stakeholders from conception through operation. This approach includes the following services: risk and quality advisory, comprehensive system and performance descriptions, assessment reporting, technical construction specifications, and innovation and thought leadership. Headquartered in Tuckahoe, NJ, Conspectus is also present in Chicago, IL, St. Louis, MO, Topeka, KS, Portland, OR and Allentown, PA. www.conspectusinc.com
